Mr. Darin E. LeCrone, P.E.  
Manager, Permit Section  
Division of Water Pollution Control  
Illinois Environmental Protection Agency  
PO Box 19276  
Springfield, IL 62794-9276

**Subject:** Metropolitan Water Reclamation District of Greater Chicago (District)  
National Pollutant Discharge Elimination System (NPDES) Permits  
Stickney WRP - IL0028053; Calumet WRP - IL0028061; Lemont WRP- IL0028070  
O'Brien (North Side) WRP - IL0028088; Kirie WRP – IL0047741  
Combined Sewer Overflow Quarterly Report

Dear Mr. LeCrone:

In accordance with Special Conditions (SC) 8.13, 13.13, 14.A and 14.11 of the O'Brien, Calumet, Stickney, Kirie and Lemont WRP NPDES permits, enclosed please find the CSO frequency report for the period of October 1, 2022 through December 31, 2022. Please note that the discharge volumes were estimated using a conservative method which assumes that all rainfall that falls during the period that a tide gate is open, is being discharged to the waterway. This discharge volume was then compared to two boundary conditions: (1) total area rainfall volume and (2) outfall pipe capacity. The minimum of these three values was used as the final discharge volume.

This report documents the following information for those CSOs that discharged during the above referenced quarter:

1. Date, duration, and volume of CSO discharge
2. Duration of storm and total rainfall
3. Estimate of BOD5 and SS discharged through the CSO outfalls
4. Estimate of combined sewage volume, BOD5, and SS captured at the subject WRPs

February 10, 2023

This quarterly report satisfies the CSO reporting obligation of those municipalities shown on the enclosed list.

If you have any questions, please call Ms. Ann Ko, Principal Engineer, at 312-751-6553.

Sincerely,

A handwritten signature in black ink, appearing to read 'John P. Murray', with a long horizontal flourish extending to the right.

John P. Murray
